

farm to TABLE

Nurturing Health, Equity, and Food Resilience for Local Children

The program's commitment...

"Being able to provide more produce to people who I feel are left out of the food system and support local farmers."

KNOWLEDGE

INCLUSION

SHARING

COMMUNITY

HEALTH EQUITY

SUSTAINABILITY

A teacher's goal...

"The kids can eat something at school that they might not eat at home, and they can take it home to share it with their families."

A child's experience...

"They had so much fun digging up potatoes like they were buried treasure. Thank you!"

NUTRITION

Provide preschool and young children with quality nutrition to help them with development and school readiness

EDUCATION

Build resilience by providing children with early nutrition and gardening education through experiential learning

ACCESS

64 childcare centers and over 60 local farms join hands to help low-income children and their families gain more access to fresh, nutritious foods
